

**physi**cool   
*Consistent cooling when you need it*

## Physicool Cooling Mist

For simply “staying cool” or speedy relief from:

- Sunburn;
- Burns;
- Hot Flashes;
- Insect Bites;
- Prickly Heat;
- Stings; and
- Much More**

Based on the  
same formula as  
the much acclaimed  
Dragon’s Den winning  
Physicool  
Cooling Bandage

# physicool

Consistent cooling when you need it

## Physicool Cooling Mist

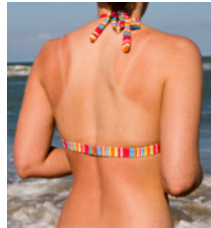

*Staying cool has never been easier!*

**Physicool Cooling Mist** provides fast, highly effective and long lasting cooling, where you need it when you need it!

Ideal for hot days and humid nights. A boon for sportsmen / women, country lovers, sunbathers and clubbers. Particularly effective in sun baked vehicles for cooling hot bodies.

**Physicool Cooling Mist** provides rapid relief from:

- Sunburn;
- Burns;
- Hot Flushes;
- Insect Bites;
- Stings;
- Prickly Heat; and
- Much More.

**Physicool Cooling Mist** works by taking heat out of the problem area through rapid evaporation. This is amazingly effective and avoids the problems associated with other products that attempt to drive cold in. To complement the cooling, Aloe Vera helps soothe the skin.

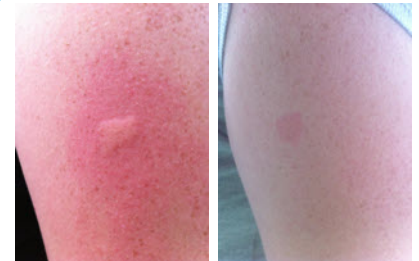

Contains  
Aloe Vera to  
Soothe the  
Skin

Just a few comments from some users:

*"I like the fact that it works for more than one problem - you need a lot of clutter in your first aid/medicine box and this would replace multiple products."*

*"Instantly cooled nettle rashes which is brilliant when gardening."*

*"I loved the spray as it was very cold and can be used for so many different things, it cooled my sunburn. And it also cooled and soothed my prickly heat."*

Wasp sting before and after using
